Speaker Bio: Daniel Craig

As a CollegePlus! Program Advisor, Daniel Craig is excited to assist prospective students and families in the Northwest region (Idaho, Montana, Oregon, Washington and Wyoming) as they seek to apply the homeschool ideology to college education. He enjoys advising students on the various

opportunities available through CollegePlus! which will enable them to achieve the goals they have set.

Daniel is currently completing a seminary degree in Philosophy and Apologetics. He was able to get a head start on his college education by combining high school and college courses using accelerated distance learning methods. In addition, he has won various awards and medals as an accomplished pianist and vocalist. Contrary to the secular mentality, Daniel believes that worldview plays into all areas of life – including education. Thus, he is thrilled about working with CollegePlus! because of the company's vision of providing a biblically-based education alternative. Daniel is passionate about helping students gain an education that does not harm their faith, but actually strengthens it.

What About College?

One of the biggest questions facing homeschoolers today is, "What are we going to do about college?" Whether it is the financial expense or a deeper concern for the education and formation of their student, parents face tough questions concerning this relevant topic.

Unfortunately, most are not aware of all their options. Many send their children off to college with their fingers crossed, hoping for the best, while others forgo college altogether and hope that their success in life is not hampered due to a lack of credentials. Check out these recent statistics:

- Literacy among college grads has fallen to 31% (American Library Association)
- 70% of students "lose their faith" at college (The Barna Group)
- College students spend more time in sports than study (National Center for Education Statistics)
- Only 54% of college freshmen will graduate from college (USAToday)

For the past eleven years, CollegePlus! has inspired audiences of all sizes with a revolutionary approach to education that perfectly matches the methodology and paradigm of homeschooling. In these practical how-to sessions, we show students how to save years worth of time and thousands of dollars graduating debt free. If you believe in homeschooling, you'll love the concepts presented in these sessions. Give your attendees additional perspective to the challenging decisions they face related to college.
