What About College?

One of the biggest questions facing homeschoolers today is, "What are we going to do about college?" Whether it is the financial expense or a deeper concern for the education and formation of their student, parents face tough questions concerning this relevant topic.

Unfortunately, most are not aware of all their options. Many send their children off to college with their fingers crossed, hoping for the best, while others forgo college altogether and hope that their success in life is not hampered due to a lack of credentials. Check out these recent statistics:

- Literacy among college grads has fallen to 31% (American Library Association)
- 70% of students "lose their faith" at college (The Barna Group)
- College students spend more time in sports than study (National Center for Education Statistics)
- Only 54% of college freshmen will graduate from college (USAToday)

For the past eleven years, CollegePlus! has inspired audiences of all sizes with a revolutionary approach to education that perfectly matches the methodology and paradigm of homeschooling. In these practical how-to sessions, we show students how to save years worth of time and thousands of dollars graduating debt free. If you believe in homeschooling, you'll love the concepts presented in these sessions. Give your attendees additional perspective to the challenging decisions they face related to college.
